Superannuation is one of the most tax effective ways for you to save for your retirement and for many Australians their superannuation fund will be one of the biggest assets they ever own. The choices you make now about your super fund can have a significant impact on the final amount you'll have when you retire.

With an Asgard Employee Super Account you have complete control over your investment decisions. We offer a range of managed investments to suit both experienced and novice investors. With the help of the financial adviser for your account, you can choose the managed investments that suit your investment needs and objectives, depending on whether you want to:

- select pre-set portfolios, managed investments or shares
- establish your own investment profile
- actively manage your portfolio each time you invest.

Investment choice

The Asgard Employee Super Account enables you to choose between:

- Asgard Separately Managed Accounts – Funds (Asgard SMA – Funds): Select one of our five preset portfolios of managed investments that are tailored to meet specific investment risk tolerance levels. There's a portfolio to suit you, no matter whether you are a cautious investor or are willing to take greater risks for a higher return on your money; or
- Asgard Managed Profiles: Design your own investment profile specific to your individual investment needs and objectives from over 330 managed investments and a broad selection of shares listed on the S&P/ASX 300 index.

Flexibility

You can switch between Asgard SMA – Funds and Asgard Managed Profiles at any time. You can also change your investment strategy at any time within Asgard SMA – Funds by selecting a different portfolio and within Asgard Managed Profiles by changing investments (or the percentages allocated to your investments). Any investments you hold which are common

to your new portfolio or profile will be automatically transferred without the need to sell down the investments.

Expertise

Benefit from the expertise of experienced investment managers. More information on the investment managers can be found in the product disclosure statement for each of the managed investments and cash products accessible through your account. These are available from the financial adviser for your account.

Wholesale prices and fee rebates

The managed investments available in Asgard Employee Super are typically not available to retail investors directly and generally have lower investment manager charges than retail funds. We have also been able to negotiate rebates on the fees charged by some of the investment managers. Members with an open account at the time the rebate is credited, will benefit from these rebates.

Financial planning support

You have access to the skills of a financial adviser, giving you the opportunity to receive professional advice on an investment strategy to suit your goals. Your welcome letter from us will tell you who the financial adviser for your account is and how to contact them.

Spouse and Family Accounts

We've introduced spouse and family accounts for Asgard Employee Super. This means that spouses and family can receive the same fee discount as the member in the Asgard Employee Super employer plan. Spouses and family may also apply for insurance through Asgard Employee Super.

Spouses will be offered insurance at group rates and family will apply via the Asgard Personal Protection Package and be subject to personal rates. Both spouses and family will be individually underwritten.
